EDUCATION

GDRCSST, BHILAI

COMPUTER APPLICATION

2023 – 2026 | 68.5 %

GOOGLE

GEMINI STUDENT AMBASSADOR

Oct 2025 – Present | Remote

SKILLS

PROGRAMMING

Python • Kotlin • Java • MySQL
• HTML/CSS/JavaScript/NoSQL

Technologies/Frameworks:

Jetpack Compose • ReactJs • NextJs
• NodeJs • Mongoose • Tailwind CSS
• Shadcn UI • UI/UX Design • AI Tools
• AI Automation • API Integration

TOOLS/APPLICATIONS

Android Studio • VS Code • Docker
• Git & Github • Clerk (Auth) • vercel
• n8n • ChatGPT • Figma • Canva
• OpenCV • scikit-learn • Tensorflow
• metasploitable2 • Nmap

OPERATING SYSTEMS

Kali Linux • Windows

CERTIFICATIONS

Coding Spoon: C Programming
College Level Contest: UI/UX Designing

EXTRA CURRICULAR

Farmik India Services: Startup
Freelancing: Projects

EXPERIENCE

WEBSOLVIT | FULL STACK DEVELOPER & AI AUTOMATION ENGINEER

Dec 2025 – Present | Nagpur, Maharashtra | Onsite - Full-Time

- Designed and developed responsive full-stack web applications using modern frontend and backend technologies.
- Implemented RESTful API integration and optimized application performance.
- Automated business workflows using AI tools and scripting to improve efficiency.

CIRIUAE | DEVELOPER & DESIGNER INTERN

July. 2025 – September 2025 | Ajman, Dubai (UAE) | Remote - Internship

- Designed and developed the company's official website and digital profile.
- Responsive web and UI/UX designs using Figma, Canva, and modern web tools.

BYTO - GAMAN TRANSPORT PVT. LTD. | UI DESIGNER INTERN

May 2025 – June 2025 | Jaipur, Rajasthan | Remote - Internship

YUGANT INDUSTRIES PVT. LTD. | UI DESIGNER INTERN

May 2025 – July 2025 | Kolkata, West Bengal | Remote - Internship

- Implemented new features design for transport application in figma
- Worked individual to implement responsive design principles created wireframes, prototypes, and high-fidelity mockups using Figma.

PROJECTS

NEAR DR. – INSTANT APPOINTMENT BOOKING [Link](#)

| MAY 2025

Find trusted doctors, schedule appointments, and make healthcare more accessible & hassle-free.

- Built full-stack healthcare app with JavaScript, React, and MongoDB for real-time doctor-patient scheduling.
- Integrated Razorpay for payments, Cloudinary for images, and responsive Tailwind CSS UI for smooth booking.

UNICORN VERIFY – DOCUMENT ACCESS MANAGEMENT [Link](#)

| APRIL 2025

Upload, preview, download, and organize your documents management securely and easily.

- Developed document management system with JavaScript, React, and MongoDB for upload, preview, and download.
- Used Cloudinary for storage and responsive React + Tailwind CSS UI.

TUMOR – MRI SCANS BRAIN DETECTION SYSTEM [Link](#)

| OCTOBER 2025

Developed an AI-powered brain tumor detection system using DL and transfer learning on MRI scans.

- Implemented CNN architecture with VGG16 and TensorFlow for multi-class MRI classification.
- Applied image preprocessing, data augmentation, and fine-tuning to improve model accuracy and generalization.
- Evaluated model performance using confusion matrix, ROC-AUC, precision, recall, and classification reports.
